TO BETTER FACILITATE YOUR SEARCH AND UTILIZE FEATURES IN ADOBE ACROBAT READER FULLY, PLEASE TAKE TIME READING THE FOLLOWING NAVIGATION INSTRUCTIONS

NAVIGATION INSTRUCTIONS

NAVIGATION:

1. To search **WITHIN** the file (chapter) that is displaying before you, click  in Acrobat Reader 4.05 toolbar.
2. To search **THROUGHOUT** all files (or chapters), click  to input the text you would like to search, then click Search. All search results categorized by chapters will be displayed in a new window with the first result being highlighted. Double-Click left mouse button on the result or click left mouse button once and click View to view the result in detail. Then click  to display all results once again. Click  to the next result and  to the previous result.
3. To view the text in different magnifications, click  to magnify the document. Press Ctrl key while clicking will reduce the magnification.
4. To view the entire document in different sizes, click  to view the document in its actual size; click  to fit the document to its width and click  to fit the screen window.
5. To navigate **WITHIN** one document, you can either use the scroll bar at right to go from pages to pages. Or, you can use  to go to the next page;  to the previous page;  to the last page and  to the first page. When you have **MORE THAN ONE** chapters opened, to move from one chapter to another, you can use  to go to the next chapter and  to the previous chapter.

6. One last instruction. Configure your Adobe Acrobat Reader 4.05 with the following setting:

Click File on the menu bar, and find Preference. Then, find General and click once.

In the “Options” section, there is an option: “Open Cross-Doc Links in Same Window”.

Make sure that there is **NO CHECK MARK** in the box left to that option.
